

Hi, welcome to my personal webpage

If you don't already know, I am Tristan Thompson a Musician, Artist, and a first-year student at the University of the West Indies in Jamaica, where I am pursuing a degree in Computer Science. I'm a creative and talented person that loves music, art, and tech. I have now been exposed to a total of four coding and markup languages which are (Python, Java, HTML, and CSS)

I grew up in Bath St Thomas Jamaica and attended the St Thomas Technical High School located in ST Thomas Jamaica, this is where I first obtained an interest in coding and programming. I was first exposed to HTML and CSS and made my first website alongside my group members in the sixth form for an IT SBA (School Based assessment). I enjoyed the experience I had making that website with my group as such I was compelled to do Computer Science at University. I hope to continue to gain a lot of solid skills that will aid me in my future career. On that note, my career interests are in Software development, web development, data science, and digital health. After graduation, I hope to have decided on which of these fields I will be going into and have gained the necessary skills for such, which will allow me to continue to grow on my own so I can be an asset to the working world.

secretary.

Below are a list of my 3 most favourite websites

- [crunchyroll.com/](https://www.crunchyroll.com/)
- [yamaha.com/products/musical_instruments](https://www.yamaha.com/products/musical_instruments)
- [amazon.com](https://www.amazon.com)

My Favourite Books

The Silver Sword

The Holy Bible

Man from Jas

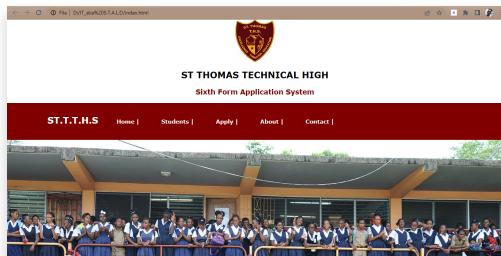

The Tempest

A image of one of my favourite animes

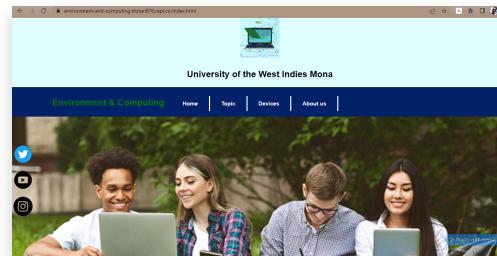

Projects portfolio

Here are some images of the projects I have done or been a part of thus far

A website

This was done for my IT SBA
wilist doing Cape IT in sixth form
